CORDLESS REBAR TYING MACHINES

RT-40A REBAR TYING MACHINE

- Lightning-fast tie speed approx. 0.6 seconds
- Ties 12-40mm rebar (20 x 20mm bar max)
- Over 5000 ties (2 wraps) and over 4500 ties (3 wraps) per battery charge

RT-60A REBAR TYING MACHINE

- Lightning-fast tie speed approx. 0.8 seconds
- Ties 30-60mm rebar (28 x 32mm bar max)
- Over 4500 ties (3 wraps) and over 4000 ties (4 wraps) per battery charge

Kit includes tie machine, 2 x 18V 4.0Ah Li-Ion batteries, charger, 4 x tie wire coils and carry case

SPEED AND RELIABILITY

- Quick bar release mechanism and automatic wire reload
- Precision engineered and superior durability - tested to > 2 million ties
- Up to 35% cheaper run cost than competitors
- Triple wrap tie tension with digital tension control
- Slim arm for tight ties and shorter tie height
- Dual brushless twisting and feeding motor technology and control system for longer life span
- Industry leading reliability with no servicing required
- Advanced warning sensor protection
- No wire offcuts
- Ergonomic, lightweight design
- Reduces impact on the body including hands, arms and back

INCREASE FIXING SPEED UP TO **8 TIMES!**

SAVE UP TO 75% Total labour + material costs vs manual tying

TWG-50A TIE WIRE

Suits RAPIDTOOL rebar tying machines

- 50 tie wire coils per carton
- Galvanized (TWG-50A) or stainless steel (TWSS-50A) tie wire coils available
- 95m tie wire coil length

RT-EXA ELECTRONIC EXTENSION ARM

STARTER KIT DEAL

3 CARTONS WIRE (150 COILS) +
RT-40A REBAR TIER
RT-60A REBAR TIER

SAVE UP TO $250

CORDLESS REBAR CUTTERS

NEW!

RAPIDTOOL PREMIUM™ CORDLESS REBAR CUTTERS

BRC-20X REBAR CUTTER

- Powerful, smooth cuts 6-20mm rebar (D500N)
- Up to 115 cuts (20mm rebar) and 390 cuts (12mm rebar) per battery charge

BSC-18X SHEAR CUTTER

- Powerful, smooth cuts 6-18mm rod
- Ideal for cutting rebar, chains and padlocks
- Access tight spaces with shear (scissor) style bolt cutter head
- Up to 150 cuts (16mm rebar) and 320 cuts (12mm rebar) per battery charge

Kit includes cutter unit, 2 x 18V 5.0Ah Li-Ion batteries, charger, detachable handle and carry case

- Spark free cuts in approx. 4 seconds
- Lightweight, ergonomic design with detachable handle and 360° rotating head
- Advanced safety features with smart controls and warning detection system
- Advanced brushless motor technology providing low vibration, low noise cuts
- Industry leading electric hydraulic precision manufacturing for ultimate reliability

Minimum diameter limit may be higher depending on material ductility.

CORDED REBAR CUTTERS

ERC-16 REBAR CUTTER

- Fast cut speed - approx. 2 seconds
- Cuts 4-16mm rebar (D500N)
- Powerful 220-240V ~ 1200W motor
- Ergonomic and lightweight portable model (8kg)

ERC-20 REBAR CUTTER

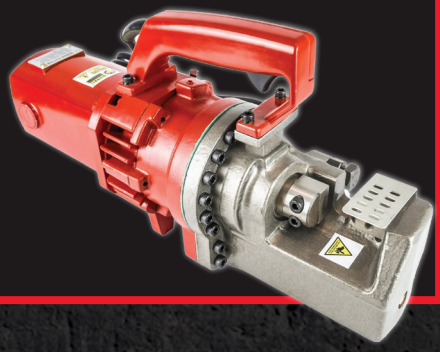

- Fast cut speed - approx. 2.5 seconds
- Cuts 4-20mm rebar (D500N)
- Powerful 220-240V ~ 1200W motor
- Ergonomic and lightweight portable model (13kg)

- Powerful hydraulics for a clean, accurate and efficient cut
- Industrial strength machine head
- No sparks operation
- Superior quality and performance
- Increases efficiency and safety on site
- Includes carry case, maintenance kit & safety guard

ERC-25 REBAR CUTTER

- Fast cut speed - approx. 3 seconds
- Cuts 4-25mm rebar (D500N)
- Powerful 220-240V ~ 1550W motor

ERC-32A REBAR CUTTER

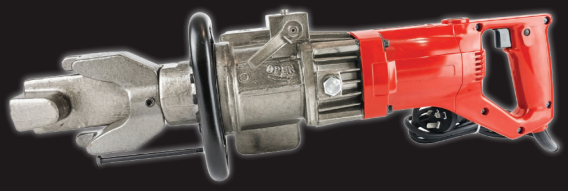

- Fast cut speed - approx. 4 seconds
- Cuts 4-32mm rebar (D500N)
- Powerful 220-240V ~ 3000W motor - 15A plug

CORDED REBAR BENDER

ERB-16 REBAR BENDER

- Fast bend speed - approx. 5 seconds (90°)
- Bends 4-16mm rebar (D500N)
- Bend 0-130° (with standard Ø30mm head) and 0-90° (with additional Ø80mm bend die)
- Powerful 220-240V ~ 1200W motor
- Powerful hydraulics for an efficient, clean and accurate bend
- Includes carry case, maintenance kit and additional large bend module and die (Ø80mm)

INDUSTRIAL REBAR BENDERS/CUTTERS

CRBC-25 INDUSTRIAL REBAR BENDER/CUTTER

- Industrial strength rebar bender/cutter combo unit bends and cuts up to 25mm rebar (D500N)
- Bending capacity - 6-25mm rebar (D500N) with a fast-bending speed - approx 2.5 seconds (90°)
- Cutting capacity - 4-25mm rebar (D500N)
- Powerful single phase - 220-240V AC - 50Hz electric motor with bender power input - 1050W and cutter power input - 1550W
- Comes with foot pedals and additional fixed bending pin diameters of 80mm/105mm (custom sizes may be purchased on request)

CRBC-32A INDUSTRIAL REBAR BENDER/CUTTER

- Industrial strength rebar bender/cutter combo unit bends and cuts up to 32mm rebar (D500N)
- Bending capacity - 6-32mm rebar (D500N) with a fast-bending speed - approx. 2.5 seconds (90°)
- Cutting capacity - 6-32mm rebar (D500N)
- Powerful single phase - 220-240V AC - 50Hz electric motor with bender power input - 2400W and cutter power input - 3000W (15A Plug)
- Comes with foot pedals and additional fixed bending pin diameters of 80mm/120mm/140mm (custom sizes may be purchased on request)

INDUSTRIAL REBAR BENDERS

CRB-25 INDUSTRIAL REBAR BENDER

- Fast-bending speed - approx. 2.5 seconds (90°)
- Industrial strength rebar bending capacity - 6-25mm rebar (D500N)
- Powerful single phase - 220-240V AC - 50Hz electric motor with power input - 1050W
- Comes with foot pedals and additional fixed bending pin diameters of 80mm/105mm (custom sizes may be purchased on request)

CRB-32 INDUSTRIAL REBAR BENDER

- Fast-bending speed - approx. 2.5 seconds (90°)
- Industrial strength rebar bending capacity - 6-32mm rebar (D500N)
- Powerful single phase - 220-240V AC - 50Hz electric motor with power input - 2400W
- Comes with foot pedals and additional fixed bending pin diameters of 80mm/120mm/140mm (custom sizes may be purchased on request)

- Powerful and efficient, accurate bends
- Controlled, accurate bending angle range from 0-180°
- Superior quality and performance
- Increases efficiency and safety on site
- Maximise performance on site or in workshop environments
- Compact unit – easy to fit in your workshop or job site
